

Happy Friday Cunard Families!

I first would like to thank you all for the conversations and the support this week. It was amazing to have our parents/guardians reach out and offer to support both here and in the community. Our students seemed happy today and there were lots of smiles afterschool as they passed me stationed up the road to ease any anxiety they may have been experiencing, and because they recognized familiar faces while walking to and from school. Thank you all!

HRCE has launched new websites! Unfortunately, all of the information contained in the old website does not transfer over so we ask for your patience as school admin is learning to navigate the new platform. We understand the frustration as many of you interacted with our site daily which is what we have always hoped for! It's our plan to have the new site up to date within the next two weeks. Please continue to check back. You can still order pizza through the tab that says "Students & Families- Useful Links- School Cash online". Please remember any orders that are placed for pizza after 12:00pm noon on Tuesday October 8th will not be included in Wednesday's delivery.

We will also be launching a new calendar within the site complete with practices, clubs and important dates from morning announcements! We hope to have that running within the week! Again thank you for your patience!

Immunization Day for grade 7 is Wednesday October 9th. If you still have not sent back your consent forms (checked yes or no) please ensure they are brought in ASAP. Our grade 6 students will also be writing the provincial assessments on Wednesday and Thursday in the morning. We will have some snacks available for them before they begin to write! Friday October 11th is a Professional Development day for staff so there are no classes on Friday.

Please see this month's newsletter below. If you cannot access the newsletter, it's my hope it opens on the new website! We have also attached some generic guidelines for lice as we do at the beginning of each year.

Have a great weekend everyone!

Cunard Admin
