

November 4, 2022

Dear Clipper Families,

As we enter November, our staff and students have found a good routine while completing the first term of our school year. Staff and students are in and out of the building learning in various ways. We love seeing our students going into our community representing our school in positive ways.

We have been fortunate with our weather and students have been able to remain active and enjoying the outdoors. We know this will change soon and remind you that all students will be required to go outside during the colder months. Please be sure your child comes dressed appropriately for the changing weather.

Our students are now further engaged with the start of volleyball season, board game club, art activities, and many more. We are also looking at starting new clubs like, drama, dungeons and dragons and music, just to name a few. If your child has some exciting ideas they would like to see at school, please encourage them to come forward to discuss this.

We continue to look for parental support and community support in activities, field trips and lunchtimes if you are available. We love having our students learning in various environments and exposed to new and exciting places, however, we cannot do this alone. Please remember we need all paperwork (Criminal Record and Child Abuse Registry) completed in advance to any events.

Regards,

Sabitha Masih

Principal Cunard Junior High School
